

Business NLP Skills Diploma

"The only thing that stands between a man and what he wants from life is often merely the will to try it and the faith to believe that it is possible." — Richard M. DeVos

Course Overview:

Do you know what you want from your professional and personal life within the next 6 months? What about the next 3 years? If you have answered NO, then this is the course for you.

During this Business NLP Skills Diploma, we will provide you with the tools that have benefited many successful entrepreneurs and large corporate organisations. We will focus your attention to what matters and re-align your mind towards business goals and success patterns, in the process eliminating any inherited restrictive beliefs.

You will work through a real life business goal setting procedure, creating a clear and concise plan of what your organisation expects to achieve within the next 3 years and establishing the changes that are required.

How can you know what you want if you don't know where you are going?

During this course delegates will be taught basic NLP business skills enabling them to:

- Clear their past of dis-empowering negative emotions such as anger, sadness, fear and guilt.
- Look at positive areas of their life, and applying this strategy to their business
- Evaluate how they structure their time and learn to change that structure at will.
- Remove limiting beliefs within their businesses reach.
- Align their life as they virtually walk it - and get to redesign every part of it with a positive spin.
- Make strategic decisions that have balance with their long-term goals.
- Install new strategies to ensure their new projects and dreams work.
- Utilise new learning skills about **themselves** that allow freedom from past patterns.
- Discover the secrets that will enable them to reconnecting with their dreams and aspirations

This Course is ideally suited to:

Management at any level who are looking to move their business forward – this is your wake up call...
